

PROGRAM SPECIFIC OUTCOMES (PSO)

Department of English	
PSO1.	Understanding importance of English as an international language.
PSO2.	Development of literary taste for creative writing.
PSO3.	Analysis of basic problems in communication in English.
PSO4.	Enrichment of critical analysis and linguistic sensibility of students.

Department of Marathi	
PSO1	Students will understand the social customs and codes through Marathi literature.
PSO2	Students will be aware of impact of various factors on Marathi literature.
PSO3	Students can understand that moral values reflected in Marathi literature
PSO4	Students can go for higher studies and post graduate courses in Marathi language

Department of Hindi	
PSO1	Students learn to communicate effectively in the Hindi language.
PSO2	Language difficulties in the skills of listening, reading, writing, speaking can be understood and solved.
PSO3	Analyze the basic problems of students in communications skills in Hindi language.
PSO4	Students will learn to write paragraph using vocabulary associated with the language function.

Department of Geography	
PSO1	Students can understand the fundamental concepts and nature of various branches of Physical and Human Geography.
PSO2	The program enables students to understand the man-nature relationship and associated social and environmental problems.
PSO3	Surveying and field observations create awareness about the environment and develops consciousness to protect the same.
PSO4	Capable to physically survey and map any land domain.
PSO5	Knowledge of geographical and climatic maps, students can effectively interpret the regional physical, cultural and climatic features.
PSO6	Knowledge of Geography enhances ability to identify vulnerable zones of various natural and man-made hazards.
PSO7	Students can understand the fundamental concepts and nature of various branches of Physical and Human Geography.

Department of Economics	
PSO1	Develops the ability to explain core economic terms, concepts and theories.
PSO2	Demonstrates the ability to employ the economic way of thinking.
PSO3	Applies economic theories and concepts to contemporary social issues, as well as formulation and analysis of policy.

PSO4	Demonstrates computer proficiency within economics.
PSO5	Demonstrates the ability to collect, process, and interpret data, including statistical inference.

Department of History	
PSO1	Understand the nature and basic concepts of History of Chh. Shivaji & His Times, Modern India, Ancient India, History of modern Maharashtra.
PSO2	History of The World In 20TH Century.
PSO3	Introduction To History, History of Asia In 20TH Century.

Political Science	
PSO1	Understanding of how political institutions, processes, laws, and ideas combine to influence policy and political outcomes.
PSO2	Understanding of transnational conflict and collaboration and their impacts on policymaking.
PSO3	Understanding of the conflicts between politics and ethics in contemporary pluralistic and bureaucratic environments.
PSO4	Understanding of the reciprocal influences between culture and politics, with particular emphasis on an understanding of the symbolic and material impacts of culture on policymaking
PSO5	Knowledge of how to conduct quantitative and qualitative research to address political issues and problems.
PSO6	Students will demonstrate substantive knowledge of concepts and facts relevant to Political Science.
PSO7	The Bachelor of Arts in Political Science prepares graduates to understand fundamental concepts in the discipline of Political Science.
PSO8	Curriculum for Bachelor in Political Science programs generally includes such topics as political philosophy, political economics, political theory, comparative governments, research methods, and political processes. There are many Bachelor Political Science programs throughout the world and different regions provide unique perspectives to each program. Bachelor Political Science graduates can have many opportunities for careers in government, politics, political administration, international organizations, non-profits, journalism, public service, communication, and law.

Department of Education	
PSO 1	Assists educate, empower and enlighten students in education with learning skills & competencies to generate versatile personality in students.
PSO2	stimulates critical awareness about educational practices
PSO3	Creates interest in education.
PSO4	Creates social attachment in students.
PSO5	Makes aware of meaning, concept & problem of higher education in India.

PSO6	Students get acquainted with the innovative trends in education.
------	--

Department of Psychology	
PSO1	To understand basic concepts of principles and theories of experimental psychology.
PSO2	To help them generate ideas for research, as well as develop hypotheses and operational definitions for variables.
PSO3	To understand recent clarification the causes, symptoms and treatment of various Psychological disorders.
PSO4	To help students understand the basic steps in scientific research.
PSO5	To give practical experience to the students in administering and scoring psychological tests and interpreting the scores.

Department of Commerce	
PSO1	Enables to acquire basic and fundamental knowledge and skills for doing business and commercial activities of their choice.
PSO2	Empowers the students to choose a profession of their choice such as CA, CS, ICWA, MBA, M.Com etc
PSO3	Acquires the accounting knowledge, management principles, retail trading, banking and insurance transactions, business economics and financial management
PSO4	Acquires knowledge in the field of management accounting, corporate accounting, statistical and mathematical techniques and knowledge relating to corporate law and business laws
PSO5	Enables students to do a business of their choice or choosing a profession or can become employees having basic knowledge and skill required for such activities.

BBA	
PSO 1	Understand of the corporate world
PSO 2	Analysis of the theoretical knowledge with the practical aspects of Organizational setting and techniques or management.
PSO 3	
PSO 4	sectors.
PSO 5	Understand the micro and macro marketing environment.
PSO 6	balance, etc.
PSO 7	Understand the international trade procedure and documentation.
PSO 8	Analysis of the various aspect of business research in the area of marketing, human resource and finance.
PSO 9	Understand the Forms of business organization.
PSO 10	Understand of the types of business communication and business letters.

B.B.A. (C.A.)	
PSO1	Understanding about how to write algorithms and design flowchart for programming purpose.

PSO2	Implementing effective business writing, skills that maximize team effectiveness Maintaining, handling, creating, querying database with mapping cardinalities Cartesian product, study models like hierarchy, data and ERD model.
PSO3	Know what E-commerce is a transaction of buying or selling online.
PSO4	Understanding about how to use VB as frontend in software Development Design & Developing Desktop Application software.
PSO5	Understand Project learning, is a dynamic approach to teaching in which students explore real-world problems and challenges, simultaneously developing cross-curriculum skills while working in small collaborative groups

Department of Zoology	
PSO 1	Acquire knowledge of Animal Science, Natural phenomenon, and manipulation of nature and environment by Man.
PSO 2	Understanding the Scientific Concepts, Facts, and their interrelationship.
PSO 3	Students followed and understand general Laboratory practice and its safety.
PSO 4	Develop scientific attitude which is the major objective this makes the students open minded, curious, and keen observer.
PSO 5	Development of application of scientific methods, collection of scientific data, and problem solving.
PSO 6	Awareness and understanding develop among the students regarding human and animal health care.

Department of Botany	
PSO1	Efforts are taken to boost up the self-confidence and employable skills of the student for establishment of self-employment at small as well as large scale and generate the income source to improve the economy of poor tribal and farmers.
PSO2	Students are skilled to utilize the raw sources of agriculture and forest for various agro-based applied industries such as floriculture, mushroom industry, nursery, food processing industry.
PSO3	Hands on training related to processing of raw material for betterment of human life.
PSO4	Makes the students aware of cultivation, conservation and protection of Biodiversity for sustainable development.
PSO5	Various life skills are achieved by the students for getting the success in their life.
PSO6	Makes the students aware of presence of biodiversity and agricultural crop pattern and variations in surrounding area of the institution.

Department of Mathematics	
PSO1	Enrich students' knowledge and train them in the mathematics.
PSO2	Students can learn integration through infinite sum.
PSO3	Know the concepts, methods of solution & classification in mathematics.
PSO4	Student's build-up a progressive and successful career in Mathematics.
PSO5	Students will be trained in problem solving, carrying out calculations faster, perfection in skills.
PSO6	Know the calculus of function of several variables, applications of double & triple integration.

PSO7	Improve logical thinking, the techniques to solve the problems.
------	---

Department of Chemistry	
PSO1	Develops abilities to apply the knowledge of contents of principles of Chemistry.
PSO2	Develops the power of appreciation, the achievements in Chemistry and its role in nature as well as in the social order
PSO3	Able to handle instruments for basic and modern chemical analysis.
PSO4	Safe-handling of chemical materials, taking into account their physical and chemical properties including any specific hazards associated with their use and the ability to conduct risk assessments
PSO5	Students followed and understood general laboratory practice guidelines, including safety
PSO6	Evaluation, interpretation and synthesis of chemical information and data

Department of Physics	
POS1	Understanding of core knowledge on various paper of Physics. Clear the concept which help them in understanding physical phenomenon in nature
POS2	Demonstrates skills & competencies to conduct scientific experiments related to
POS3	Identify their area of interest & further specialize in the Physics
POS4	Analyses situation search for truth & extract information, formulate & solve problems in a systematic and logical manner.
POS5	Possesses advanced knowledge & skills in job market for various technical industries

PROGRAM SPECIFIC OUTCOMES (PSOs) FOR POST GRADUATE COURSE

Department of English	
PSO1.	Understanding importance of English as an international language.
PSO2.	Development of literary taste for creative writing.
PSO3.	Analysis of basic problems in communication in English.
PSO4.	Enrichment of critical analysis and linguistic sensibility of students.

Department of Marathi	
PSOs	Program Specific Outcomes
PSO1	Students Will Understand The Social Customs And Codes Through Marathi Literature.
PSO2	Students Can Go For Higher Studies And Post Graduate Courses In Marathi Languages.

Political Science	
PSO1	Acquires deeply information of the theories and scholarly literature devoted to difference fields within the discipline of Political Science
PSO2	Enhances the ability of students to express their thoughts in writing (all Political Science graduate classes include a significant writing component).

PSO3	Prepares MA students for purposeful careers in politics, government, international affairs, law, the non-profit world, journalism, business, education, social services, and other professions, as well as for further graduate (PhD) study at professional colleges and institutions of higher learning, both in the India and abroad.
PSO4	Acquires advanced methodological training, including taking advanced statistics courses at India, as well as participating in specialized programs outside of India, such as the Inter-University Consortium for Political and Social Research (ICPSR)
PSO5	Political science students should be able to Comprehend the basic structures and processes of government systems and/or theoretical underpinnings.
PSO6	Political science students should be able to Analyze political problems, arguments, information, and/or theories.
PSO7	Political science students should be able Apply methods appropriate for accumulating and interpreting data applicable to the discipline of political science.
PSO8	Understanding of how political institutions, processes, laws, and ideas combine to influence policy and political outcomes at local, National and International levels.
PSO9	Understanding of transnational conflict and collaboration and their impacts on policymaking.
PSO10	Understanding of the conflicts between politics and ethics in contemporary pluralistic and bureaucratic environments.
PSO11	Understanding of the reciprocal influences between culture and politics, with particular emphasis on an understanding of the symbolic and material impacts of culture on policymaking
PSO12	Knowledge of how to conduct quantitative and qualitative research to address political issues and problems.
PSO13	Students will demonstrate substantive knowledge of concepts and facts relevant to Political Science.
PSO14	The Master of Arts in Political Science prepares graduates to understand fundamental concepts in the discipline of Political Science.
PSO15	Curriculum for Master of Arts in Political Science programs generally includes such topics as political philosophy, political economics, political theory, comparative governments, research methods, and political processes. There are many Bachelor Political Science programs throughout the world and different regions provide unique perspectives to each program. Master of Arts in Political Science graduates can have many opportunities for careers in government, politics, political administration, international organizations, non-profits, journalism, public service, communication, and law.

Department of History	
PSO 1	The history department faculty students shall be able to understand background of our religion, customs, institutions, administration.
PSO 2	Students can understand political, religion, social, economic conditions of peoples.
PSO 3	Students can analyze relationship between the past and the present culture.
PSO 4	Student can develop practical skill like, 1) Draw historical maps carts diagrams etc. 2) To prepare historical models.
PSO 5	Students can develop interest in the study of history likes, 1) Participate in historical

PSO 6	Study of history helps to impact moral education
PSO 7	Students can develop their knowledge in musicology.
PSO 8	History can develop the patriotism in the heart of students and society.

Department of Geography

PSO1	Students can understand the fundamental concepts and nature of various branches of Geography and various sub branches of Physical and Human Geography.
PSO2	Enables students to understand the man-Environment relationship and associated social and environmental problems and prospects.
PSO3	Surveying and field observations creates awareness about the environmental condition
PSO4	Knowledge of Aerial, Satellite image as well as SOI Toposheets students can effectively interpret the regional, physical, cultural features.
PSO5	Knowledge about contribution of Ancient period geographer and modern period

M.com (Advanced Accounting and Taxation.)

PSO1	Students will demonstrate progressive affective domain development of values, including but not limited to receiving and responding to: the role of accounting in society, business ethics, environmental and global societal sustainability, and/or career
PSO2	Students will be able to demonstrate progressive learning of various tax issues and tax forms related to individuals.
PSO3	Students will learn relevant accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.
PSO4	Students will be able to demonstrate knowledge of preparation of Financial Statements and or financial schedules in accordance with Generally Accepted Accounting Principles through analysis and synthesis of information as well.

M.Com. (Advanced Banking and finance)

PSO1	Apply knowledge and skill to demonstrate autonomy, well developed judgments, adoptability, and responsibility as a practitioner or learner in the field of banking and
PSO2	Have advanced knowledge within a systematic and coherent body of knowledge relating to the field of banking and finance law, including the acquisition and
PSO3	Legal issues arising in connection with financial product and services, banking instruments and sophisticated techniques.
PSO4	Develops a greater understanding and a sophistication of thinking as they work through the courses.
PSO5	Builds on their existing knowledge to approach the concepts and principles from a wider context.
PSO6	Be at a stage where they will have obtained qualities and skills necessary for employment and further study in the area

Department of Zoology

PSO 1	Understanding of the concept, in details, of Biochemistry, Entomology, Cell Biology, Animal Physiology, Parasitology, Animal Diversity & Taxonomy, Research Methodology and Environment Biology.
PSO 2	Understanding of the relationship among insects, animals, mankind and nature.
PSO 3	Students get aware of applications of Life Sciences in Medical field, Agriculture, Pharmaceutical Industries, Food industries, Biotechnology and Forensic Sciences.
PSO 4	Students can implement their laboratory skills in the area of Pest Control, Biotechnology, Biochemistry, Genetics, and Molecular Biology.
PSO 5	Implementation of research methodologies in research areas is one of the important outcome of this course.

Department of Chemistry	
PSO 1	Develops generic skills for employment or further training in R&D, science based industry and establishments, education, and for training at management levels in other professions.
PSO 2	Develops interpersonal skills, relating to the ability to interact with other people and to engage in team working.
PSO 3	Develops powers of critical analysis and ability to solve problems.
PSO 4	Understands the official method of standardization and quality control.
