

PROGRAM OUTCOMES (POs) FOR UNDERGRADUATE COURSES

1. Program: B.A.

After completing the Bachelor of Arts degree, students are able to:

POs	Program Outcomes
PO1	Acquire knowledge with facts and figures concerned with subjects such as Languages, Geography, Education, History, Economics, Psychology etc.
PO2	Identify with the basic concepts, fundamental principles, and various theories in the subjects of faculty.
PO3	Grasp the importance literature in creating aesthetic, mental, moral, intellectual development of an individual and increasing a healthy society.
PO4	Understand how issues in social science influence literature and how literature can provide solutions to the social issues.
PO5	To gain the analytical ability to analyze critically the literature and social issues, appreciate the strength and suggest the improvements for better results.
PO6	Appreciate that social issues are no longer permanent and largely depend on political, economical changes and also on the developments in science and technology.
PO7	Appear as a multifaceted personality who is self dependant and creating opportunities to do so.
PO8	Develop various communication skills such as reading, listing, writing, speaking etc., which will help in expressing ideas and views clearly and effectively.
PO9	Development of multiple communication skills that will complement to personality development.

2. Program: B.Com.

After completing the Bachelor of Commerce degree, students are able to:

POs	Program Outcomes
PO1	Expose knowledge of major theories and models in key areas of organizational behavior
PO2	Create the self-confidence environment to our students and to offer reliable educational resources that can fill the academic standards and innovations.
PO3	Analyze organizational problems and generate realistic solutions based on current academic research in organizational behavior.
PO4	Demonstrate knowledge of microeconomic theory as it relates to markets, firms, government policy, and resource allocation.
PO5	Demonstrate knowledge of key concepts underlying quantitative decision analysis.
PO6	Apply basic mathematical and statistical skills necessary for analysis of a range of problems in economics, actuarial studies, accounting, marketing, management and finance.
PO7	Demonstrate knowledge of the theories, concepts and findings of the various specializations.
PO8	Develop feasible alternatives and make effective decisions relating to business ethics and social responsibility.

3. Program: B.Sc.

After completing the Bachelor of Science degree, students are able to:

POs	Program Outcomes
PO1	Obtain knowledge with facts and figures related to various subjects in basic sciences such as Physics, Chemistry, Botany, Mathematics, Zoology etc.
PO2	Understand the fundamental concepts, principles, and scientific theories related to various scientific phenomena and their relevance in daily life.
PO3	Acquire expertise in handling scientific instruments, planning and performing laboratory experiments nothing losing the observations and drawing logical inferences from them.
PO4	Evaluate the given scientific data critically and systematically and drawing objective conclusions.
PO5	Able to think creatively (divergently and convergent) to propose novel ideas in explaining facts or providing new solution to the problems.
PO6	Develop the scientific outlook not only with respect to science subjects but also in all aspects related to life.
PO7	Absorb ethical, moral and social values in personal and social life leading to highly cultured and civilized personality.
PO8	Realize the knowledge of subjects in other faculties such as humanities, performing arts, social sciences etc. can greatly and effectively influence & inspire in evolving new scientific theories and inventions.
PO9	Apply their knowledge of science across a range of fields , with in depth knowledge in at least one area of study .
PO10	Employ highly developed conceptual , analytical, quantitative and technical skill and are adept with a range of technologies .

4. Program: BBA (CA)

After completing the Bachelor of Business Administration in Computer Applications degree, students are able to:

POs	Program Outcomes
PO1	Understand About how to write algorithms and design flowchart for programming purpose.
PO2	Implement effective business writing, skills that maximize team effectiveness maintaining, handling, creating, querying database with mapping cardinalities. Cartesian product, study models like hierarchy, data and ERD Model.
PO3	Know what E-commerce is a transaction of buying or selling online
PO4	Understand about how to use VB as frontend in Software development design and developing desktop application software.
PO5	Understand project learning, is a dynamic approach to teaching in which students explore real-world problems and challenges, simultaneously developing cross curriculum skills while working in small collaborative groups.
PO6	Design and implement a web page, develop IT-oriented security issues and protocols.
PO7	Develop programming skills, networking skills, learn applications, packages, programming languages and modern techniques of IT.
PO8	A few of them being like software programmer, system and network administrator, web designer faculty for computer applications.

4. Program: BBA

After completing the three year degree in B.B.A, students are able to:

POs	Program Outcomes
PO 1	Provide adequate basic understanding about Management Education among the students.
PO 2	Prepare students to exploit opportunities being newly created in the Management Profession.
PO 3	Train the students in communication skills effectively.
PO 4	Develop appropriate skills in the students so as to make them competent and provide themselves self-employment.
PO 5	Inculcate Entrepreneurial skills.

PROGRAM OUTCOMES (POs) FOR POSTGRADUATE COURSES

1. Program: M.A. (Marathi)

After Completing the Postgraduate degree in Marathi, students are able to:

POs	Programme Outcomes
PO1	Development of communication and writing skills
PO2	Enrichment of critical and linguistic skills.

2. Program: M.A. (English)

After Completing the Postgraduate degree in English, students are able to:

POs	Program Outcomes
PO1	To gain the analytical ability and skill of critical appreciation of literary pieces.
PO2	Development of multiple communication skills that will complement to personality development.
PO3	Enrichment of literary and linguistic skills.

3. Program: M.A. (Geography)

After Completing the Postgraduate degree in Geography, students are able to:

Pos	Programme Outcomes
Pos 1	To grasp the important literature in creating aesthetic, mental, moral, intellectual development of an individual and increasing a healthy society.

4. Program: M.A. (History)

Pos	Programme Outcomes
PO1	To introduce the student to some of the issues that Have been debated by the historians
PO2	To study the history from an analytical perspective
PO3	To articulate their own ideas and views leading to the research orientation

5. Program: M.A. (Political Science)

After Completing the Postgraduate degree in Political Science, students are able to:

POs	Programme Outcomes
PO1	Acquire knowledge with facts and figures related concerned with subjects such as Political Science ,History, Geography, Economics, Languages, etc.
PO2	Identify with the basic concepts, fundamental principles, and various theories in the above mentioned subjects.
Po3	Grasp the importance literature in creating aesthetic, mental, moral, intellectual development of an individual and increasing a healthy society
PO4	Understand how issues in social science influence literature and how literature can provide solutions to the social issues.
PO5	To gain the analytical ability to analyze critically the literature and social issues, appreciate the strength and suggest the improvements for better results
PO6	Appreciate that social issues are no longer permanent and largely depend on political, economical changes and also on the developments in science and technology
PO7	Appear as a multifaceted personality who is self dependant; earning his own bread and butter and also creating opportunities to do so.
PO8	Develop various communication skills such as reading, listing, speaking, etc., which will help in expressing ideas and views clearly and effectively.
PO9	Students will possess a broad, liberal arts foundation and an understanding of how developments in social and intellectual history shape and affect human values and institutions.
PO10	Demonstrate an advanced knowledge and understanding of one or more selected fields of study in core disciplines in the humanities, social sciences and languages.
PO11	Apply critical and analytical skills and methods to the identification and resolution of problems within complex changing social contexts.

6. Program: M.Com. (Commerce)

After Completing the Postgraduate degree in Commerce, students are able to:

Pos	Program Outcomes
PO1	Impart the knowledge basic accounting principles and the latest→ application oriented corporate accounting methods.
PO2	Inculcate the knowledge of business and the techniques of managing the business with special focus on marketing, Insurance and banking theory law and practices.
PO3	Develop the decision making skill through costing methods and practical application of management accounting principles.
PO4	Enhance the horizon of knowledge in various field of commerce through advertising and sales promotion, auditing and entrepreneurial development.
PO5	Demonstrate knowledge of key concepts underlying quantitative decision analysis.
PO6	Enhance the computer literacy and its applicability in business through latest version on tally and e-commerce principles.
PO7	Demonstrate knowledge of the theories, concepts and findings of the various specializations.
PO8	Create awareness in application oriented research through research for business decisions..

7. Program: M.Sc. (Zoology)

After Completing the Postgraduate degree in Zoology, students are able to:

POs	Program Outcomes
PO1	Explain how organisms function at the level of the gene, genome, cell, tissue, organ and organ-system.
PO2	Adapt biological technologies to the problems of education, industry, agriculture, health and environment
PO3	Writes a proposal that identifies a missing piece of basic knowledge and places that contribution in the context of a research program.
PO4	Understand the basic concepts of chordates and non-chordates
PO5	Understand the process of evolution.

8. Program: M.Sc. (Organic Chemistry)

After Completing the Masters degree in Organic Chemistry, students are able to:

POs	Program Outcomes
PO1	Acquire knowledge, abilities and insight in well-defined area of research within Chemistry.
PO2	Work as a Chemistry professional, and qualify for training as scientific researcher.
PO3	Develop knowledge of scientific theories and methods, gain experience in working independently with scientific questions and clearly express their opinion on academic issues.
PO4	Develop communication skills, both written and oral, for specialized and non-specialized audiences.
PO5	Acquire the skills of planning and conducting advanced chemical experiments and applying structural-chemical characterization techniques.
PO6	Examine specific phenomena theoretically and/or experimentally, contribute to the generation of new scientific insights or to the innovation of new applications of research in Chemistry.
